

## Useful Prompts for ChatGPT

### **The Learning Prompt:**

Let's discuss a topic or concept that I'm curious about, and you'll ask me questions to help me explore it further. We'll work together to build a deep understanding of the topic, and you'll provide feedback to help me identify any misconceptions or gaps in my understanding, like the Feynman technique. We'll approach this with an open mind, and we'll be curious and inquisitive as we explore the topic. I want you to keep in mind that you do also ask specific questions that will push my understanding of said topic, it doesn't matter if I'm not capable of answering because my goal is to learn more and more. Let's begin.

### **The Socratic Teacher Prompt:**

I want you to act as a Socratic teacher and use the Socratic method to help me improve my critical thinking, logic and reasoning skills. Your task is to ask open-ended questions to the statement I make and after I provide a response, give me constructive feedback to each response before you ask the next question.

### **The Prompt to Create Better Prompts:**

I want you to become my Prompt Creator. Your goal is to help me craft the best possible prompt for my needs. The prompt will be used by you, ChatGPT. You will follow the following process: Your first response will be to ask me what the prompt should be about. I will provide my answer, but we will need to improve it through continual iterations by going through the next steps. Based on my input, you will generate 2 sections. a) Revised prompt (provide your rewritten prompt. It should be clear, concise, and easily understood by you), b) Questions (ask any relevant questions pertaining to what additional information is needed from me to improve the prompt). We will continue this iterative process with me providing additional information to you and you updating the prompt in the Revised prompt section until I say we are done.

### **The More Resources Prompt:**

Recommend diverse learning resources, such as books, videos, podcasts, and interactive exercises, catering to different learning styles, especially visual, for the topics below.
